PROJECTS

BRIDGING SOLUTIONS IN THE CODING COMMUNITY :

- Developed a collaborative tech platform enabling users to share knowledge and solve problems, featuring a user-friendly interface and a voting system for efficient solution identification.
- The platform empowers users to collaboratively overcome coding challenges and expand their professional networks through efficient problem-solving features.
- Designed & implemented the system's front-end using HTML,CSS and REACTJS for an intuitive and responsive user interface.

ONLINE ART GALLERY MANAGEMENT SYSTEM :

- Online Art Gallery is an online application, which is used to display and sell art works of artist
- visitors can explore artworks using search and filter options, enhancing their overall experience.
- The system can integrate with popular social media platforms, allowing users to share their favorite artwork, interact with artists and other art enthusiasts, and promote the online art gallery to a wider
